Core improvements

4

Pro Improvements

1

New feature

Streamlined Inventory

Accounting

Inventory

- ✘ **Ability to update job numbers on open purchase orders**
Save time and get more accurate job costing

You can now easily reassign ordered equipment and materials to another job when that inventory doesn't get used on the original job.

Streamlined Receivables

Accounting

CSR

- ✘ **Customer PO number on Job booking screen**
Collect info quickly, get paid faster

Increase transparency on invoices with the new way to include the customer PO number right from the start. Make it easier for customers to process payment.

Streamlined Coordination

Accounting

Install Coordinator

- ✘ **Projects shown on location records**
Significantly reduce the number of places you need to look

Save yourself some of the hassle of filtering through hundreds to thousands of jobs for customers with multiple locations. Now you can more efficiently track down information and just look in the specific location.

Other goodies

Pricebook

Pricebook Pro

Inventory

- ✘ **No more going back each time** with the new Pricebook "Save and Add another" button

Increase inventory control and safeguard from over ordering with max replacement settings

Regional pricing averages with Price Insights in Pricebook Pro

- ✘ You asked! Feature released due to direct feedback and requests.
[Keep them coming!](#)

SystemForward America

TemperaturePro - Birmingham

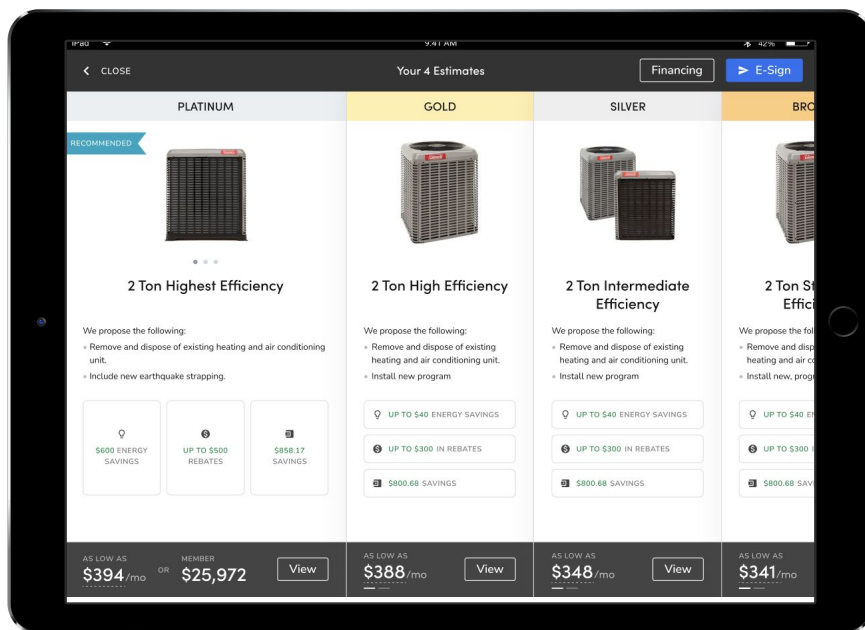

...and many others!

Mobile Estimates Redesign Open Beta

Mobile Estimates has been redesigned to help take your sales experience to the next level!

You now have the ability to present vivid imagery, job descriptions, multiple options, and improved usability. Plus, new infoboxes such as energy savings, rebates, and membership savings will appear to help you communicate more value.

We are also introducing the “HVAC Pack” which will include an HVAC Load Calculator, SEER Energy Savings Calculator, and Rebates field to use when building and presenting estimates in the field.

Mobile Estimates Redesign allows you to:

- Drive revenue by increasing close rates and average ticket size by showing more information that communicates value during your sales process
- Increase professionalism with modern mobile estimates and give your customers the shopping experience they're looking for

If you'd like to join the Open Beta, reach out to your CSM and they can turn it on for your account!
